- Enable advanced features in Adobe Reader¹
- Permanently remove sensitive information
- Archive Microsoft Outlook e-mail in PDF
- Archive Lotus Notes e-mail
- Save in Microsoft Word
- Enjoy improved performance and support for AutoCAD
- Take advantage of a new, intuitive user interface

Adobe Acrobat 8 Professional software enables business professionals to reliably create, combine, and control Adobe PDF documents for easy, more secure distribution, collaboration, and data collection.

Create and optimize Adobe PDF documents

Create an Adobe PDF document from Microsoft Office, Outlook, Internet Explorer, or any application that prints. Easily convert and optimize documents, spreadsheets, e-mails, websites, and technical drawings into more secure Adobe PDF files that preserve the formatting and integrity of the original files. Share information with anyone using free Adobe Reader® software.

Combine files from multiple applications

Easily assemble documents, spreadsheets, presentations, e-mails, web pages, forms, CAD drawings, and diagrams into a single Adobe PDF document. Present files in your preferred order, regardless of file type, paper size, or orientation. Embed multimedia, 3D designs, audio, and video for a richer experience.

Enhance and extend document collaboration

Accelerate feedback and approvals with robust tools for initiating, managing, and tracking document reviews. Enable Adobe Reader¹ users to participate in document reviews with commenting tools. Reviewers can use familiar commenting tools—including sticky notes, stamps, highlighter, pencil, strikethrough, callout, dimension lines, shapes, and clouds—for review and markup of Adobe PDF files. Merge feedback into a single PDF file to reconcile comments.

Streamline data collection with Adobe PDF forms

Automate manual entry and help reduce costly errors by managing information electronically with PDF forms. Easily create a wide range of electronic forms for distribution through e-mail or on the web. Enable users of free Adobe Reader¹ to fill and save forms.² Capture and consolidate inbound data into spreadsheets or back-end systems.

Apply advanced document security and controls

Control access to and use of Adobe PDF documents, assign digital rights, and maintain document integrity. Set document permissions to define whether a file can be printed or changed. Apply passwords to help restrict document access. Digitally sign and certify documents to validate they came from a trusted source. Create and reuse document control policies to precisely manage who can print, save, copy, or modify a document.

¹ Requires Adobe Reader 7.0 or 8.

² For ad-hoc forms distribution and data collection for up to 500 people.

The top reasons to buy Adobe Acrobat 8 Professional

System requirements

Windows®

- Intel Pentium III processor or equivalent
- Microsoft Windows 2000 with Service Pack 4 or Windows XP Professional, Home Edition, or Tablet PC Edition with Service Pack 2
- Microsoft Internet Explorer 6.0
- 256MB of RAM (512MB recommended)
- 860MB of available hard-disk space; cache for optional installation files (recommended) requires an additional 460MB of available hard-disk space
- 1,024x768 screen resolution
- CD-ROM drive
- Internet or phone connection required for product activation

Macintosh

- PowerPC G3, G4, G5, or Intel processors
- Mac OS X v.10.4.3
- 256MB of RAM (512MB recommended)
- 1,060MB of available hard-disk space
- 1,024x768 screen resolution
- DVD-ROM drive

Enable advanced features in Adobe Reader

Enable anyone using free Adobe Reader¹ to participate in document reviews, fill and save electronic forms offline², and digitally sign documents.

Combine and optimize documents

Combine documents, drawings, and rich media content into a single, polished Adobe PDF document. Optimize file size, and arrange files in any order regardless of file type, dimensions, or orientation.

Accelerate document reviews

Send documents for review and track which reviewers have contributed feedback. Compile comments into a single PDF document with one-button ease and sort them by author, date, or page.

Save in Microsoft Word

Save Adobe PDF files as Microsoft Word documents, retaining the layout, fonts, formatting, and tables, to facilitate reuse of content.

Create advanced forms

Design dynamic, interactive forms to collect and aggregate data through e-mail or on the web with included Adobe LiveCycle® Designer software. (Windows only)

Easily create Adobe PDF documents

Create Adobe PDF documents with one-button ease from Microsoft Office applications. Windows users can also create Adobe PDF documents from Outlook, Internet Explorer, Project, Visio, Access, Publisher, AutoCAD®, and Lotus Notes.

Apply passwords and assign permissions

Restrict access to Adobe PDF documents using 128-bit encryption. Set document permissions to help restrict who can print, save, copy, or modify a document.

Permanently remove sensitive information

Permanently remove metadata, hidden layers, and other concealed information, and use redaction tools to permanently delete sensitive text, illustrations, or other content.

Archive papers and e-mails for easy search and retrieval

Scan paper documents with OCR technology to create compact, searchable Adobe PDF documents. Convert Microsoft Outlook e-mail archives to Adobe PDF to facilitate search and retrieval.

Generate professional, print-ready files

Automate the preflight process and correct issues that might compromise print quality without creating a new Adobe PDF document.
